### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Massey on 6/10/2005.

The application has been amended as follows:

Canceled Claims 1-9, 16-20 without prejudice or disclaimer.

Replaced the Claim 10 with the following:

Claim 10 (once amended). A method of treatment ~~or prophylaxis~~ of herpes simplex virus (HSV) infections in mammals, the method comprising, administering intravenously to a mammal an effective amount of a composition comprising monomeric IgA, dimeric IgA, and IgG prepared from pooled human plasma, wherein monomeric and dimeric IgA comprise at least from about 35% to about 55% of the total immunoglobulins present in the composition.

Claims 10-15 are allowed.

The following is an examiner's statement of reasons for allowance:

Art Unit: 1648

The claimed invention is free of art. The closest art identified are the teachings by Raizman et al (1988); Corbino et al (1989); Moskovskij (RU 2051054 C1); Dix et al (Infection And Immunity, Oct. 1981, Vol. 34, No. 1, pages 192-199); and Rector et al (Infection and Immunity, Oct. 1982, Vol. 38, No. 1, pages 168-174). The now claimed invention, however, would not have been obvious in view of the prior art teaching. The Office is of opinion that no motivation would have existed, at the time of filing, for one of ordinary skill in the art to administer serum antibodies that are non-specific to herpes virus surface glycoprotein(s) to treat the very virus, i.e. herpes infection. In addition, the data in the disclosure shows unexpected results over the teachings of prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
